

Clair Kelly

Clair is Information and Research Officer at Muscular Dystrophy Ireland (MDI). She manages the Information services, co-ordinates the research committee and acts as a representative and advocate on behalf of MDI on a variety of forums. Clair joined the Board of Rare Diseases Ireland in 2015. Clair also sits on the Board of the Neurological Alliance of Ireland.

Clair began her career in medical laboratories.

Subsequently she obtained a degree in Psychology and a Master's degree in Health Psychology from the University of Ulster. Since then Clair has worked on a number of research projects and clinical trials in the health and voluntary sector. Clair's main research interests lie in both the psychosocial adjustment to illness and in the genetic basis and treatment of rare diseases.
